1.3 Schedule of Plant & Equipment Excluded from this contract.

1.4 Mechanical maintenance contract shall be for 1 year rolling over each year unless stated otherwise.

1.5 The maintenance contract amount shall include only the complete “service procedure” for a particular item of plant, as listed in the manufacturer's literature (contained in the O & M manual), to be carried out on the plant item. This shall be relevant for all items listed in 1.2 above.

1.6 Any defective equipment or problems with the systems shall be listed and shall be included with our service report and associated results.

1.7 There shall be several complete system services carried out per year as detailed in the asset list attached. This shall involve visits to the site of a number of specialist service engineers. All visits shall be programmed, and the client shall be given advance notice.

2.***SERVICE REPORTS***

- 2.1** Quinn Downes Service & Maintenance shall give the client 2 days' notice prior to the intended service calls to the site and seek approval from the client.
- 2.2** It is proposed that all site visits be carried out during normal working hours. Agreement for out of normal hours work can be arranged where servicing may cause disruption to the client's trading/operations.
- 2.3** A report shall be submitted to the client after all of the servicing has been completed detailing results and any recommendations. The initial report shall be issued within 2 days followed by a comprehensive report c/w recommendation within 2 weeks.
- 2.4** A report shall consist of the following: -
- a) A description of the equipment and area where the inspection and service were carried out.
 - b) The type of service carried out.
 - c) Any recommended action required shall be included where equipment is found to be defective and a cost for same shall be issued.
- 2.5** No additional works shall be carried out without the written approval of the client except in the event of an emergency.

3***MATERIALS***

- 3.1** Essential materials required to carry out the maintenance/service program are included. Any materials required to carry out repairs shall be included in quotations supplied with our service reports.
- 3.2** Filters and Belts are not included but labour to fit these are included.
- 3.3** All redundant material shall be removed from the site and has been allowed for in this contract. The costs associated with the removal and safe disposal of Hazardous material are not included for and the cost of same shall be quoted for in writing as the occasion arises.

4.***LABOUR***

- 4.1** This contract includes the supply of fully qualified labour to carry out the complete service of all items included in the scope of this contract.
- 4.2** Schedule 8 indicates our call out rates for various times throughout a 24 hours period.

- 4.3** All rates are fixed for a 12 month period, effective from the date of your official order, or the commencement date indicated on that order.

5. *DURATION OF CONTRACT*

- 5.1** The maintenance contract shall be for a period of 12 calendar months commencing on a date approved by the client rolling over each year unless stated otherwise.
- 5.2** This contract can be terminated if it is found to be unsatisfactory by the client after 1 months' notice.
- 5.3** This contract is subject to re-negotiation where the scope of works has been significantly altered.

6. *SCHEDULE & EQUIPMENT PROGRAMME*

- 6.1** A schedule of plant and associated maintenance visits is outlined in Appendix No.1
- 6.2** This schedule is not final and may be expanded or reduced pending client requirements

7. *HEALTH & SAFETY*

- 7.1** This maintenance contract shall comply with the clients Health & Safety Statement.
- 7.2** Quinn Downes Service & Maintenance shall issue on request a copy of the company's Health & Safety Statement.
- 7.3** This contract shall comply fully with all current applicable regulations and standards:
