

Summary of Defective Items

Aviva No.	Serial No.	Description	Status	A Defects	B Defects	Observation
P018	3602468	Air Conditioning Unit No. 3602468 By Daikin	Observations	No A Defect Noted	No B Defect Noted	All safety/protective devices should be function tested in accordance with the maker's recommendations as part of the routine service by the service engineer and documentation of these records made available for inspection.
P014	3602420	Air Conditioning Unit No. 3602420 By Daikin	Observations	No A Defect Noted	No B Defect Noted	All safety/protective devices should be function tested in accordance with the maker's recommendations as part of the routine service by the service engineer and documentation of these records made available for inspection.
P028	2602233	Air Conditioning Unit No. 2602233 By Daikin	Observations	No A Defect Noted	No B Defect Noted	All safety/protective devices should be function tested in accordance with the maker's recommendations as part of the routine service by the service engineer and documentation of these records made available for inspection.
P021	2602210	Air Conditioning Unit No. 2602210 By Daikin	B Defect	No A Defect Noted	Main electrical isolator switch cover loose-rectify by 25-12-2024	All safety/protective devices should be function tested in accordance with the maker's recommendations as part of the routine service by the service engineer and documentation of these records made available for inspection.
